PREVIOUS REFERENCES	LATER REFERENCES
	Annexed

8989(9)

Note

The Principal Central College requests that the Contingent allotment of the College may be raised from Rs 300 to 400/ a year with effect from the current Offl year inclusive

In Prop N° 2840-2 Ed 113 d 28th Augt 96 (Sec N°23), the allotment for the Physical and Chemical Laboratories of the Central College was raised from Rs 300 to Rs 1000 per annum The present application has reference to the ordinary Contingent expenditure of the College The proposal may be sanctioned.

The Principal further asks for permission to issue clothing annually to the Peons & Laboratory attendants of the College at a cost not Exceeding Rs 60/- per annum -

The subject of Peons' clothing as regards the Central College was, along with

Section Code
Title No 19 0/96
Sl No 1-14

7

similar proposals for some other Offices, ordered to lie over for the present (vide Secy's order on the Office Note in the File below)

File No 149 of 1892/93 (Peons' Clothing)

Now however, as the Principal presses the question and as the Central Class is an institution which has nothing in common with Govt Offices, the proposal may be sanctioned

The Cost according to the scale in force in this Office with be as follows

1	Daffédar	-	11-10-
8	Peons and attendants at 6-12-0	-	54
	Total		65-10-

vide Cook says the estimated Cost is Rs 60/- per annum

A draft is submitted for approval

54 2 (21) Bangalore 17 Aug 1896

From

The Principal
Central College
Bangalore

To

The Secretary to Government
General & Revenue Departments,

I have the honor to request that you may kindly place before the Government the following Report on the urgent necessity for (1) an increased annual Contingent Grant for the Physical and chemical Laboratories of the College and (2) a Special Grant for Physical Apparatus

Report

For some years back I have found present annual grant of Rs 300/— hich was fixed many years ago for the Laboratories (both Physical and Chemical) utterly inadequate to requirements of the College

The number of Students taking up Science and attending the Practical Chemistry Laboratory is now between

50

50 and 60, and thus necessarily implies a greatly increased consumption of Chemicals and use of apparatus When the present Grant was sanctioned the numbers were about one third of what they have swelled to during the last few years and with the utmost parsimony even in the use of the Chemicals I have not been able to manage with the grant of Rs 300/ During the past two years I have levied a special payment of Rs 2/ per annum from each student to help to pay for his breakages of Chemical apparatus but with all that I have not been able to keep the Laboratory out of debt and the Contingent Grant for 1896-7 is already spent and some Rs 250 in addition has been advanced by me The extension of our Chemical Laboratory completed a year ago has occasioned this and rendered it now quite impossible to go on without a largely increased grant

I may state for information of the Government that from inquiries made

of l

of Dr Duncan the Director of Public Instruction Madras I learn that the Presidency college there has an Annual Grant Contingency Grant of Rs 3600 distributed as follows –

2400 | Rupees 1200 for Physical Laboratory
— | Rupees 1200 for Chemical
— Rupees 1200 for Biological

This is quite apart from Special Grants for new apparatus

Though in one way we may not compare with the Presidency college yet in point of numbers and I believe in efficiency of teaching Physics and Chemistry we certainly as the Mysore State has a special interest in the advancement of all the Natural Sciences, it needs no demonstration from me that grants in this connexion could not be better spent and after all, what I ask is a mere trifle to such a State as Mysore Taking all these things into account I do not think that I am at all extravagant in asking the

Government

Government to increase our Laboratory Contingent Grant for both the Physical and Chemical Laboratories to Rs 1000/ per annum and I beg that the Govern=ment may be pleased to sanction this as from the commencement of the current official year 1st July 1896

2/ In view of the extraordinary advances made by Physical Science durn the last two or three years and specially of the new Rontgen Electric Photography which has startled the whole world our Physical Apparatus is now utterly behn the times, and I have the honor to requ the Government to sanction the expenditu by me in England of such a sum as will keep the Central College abreast of the other Colleges in India in this Subject I may inform the Government that I have been doing a good deal with the New Photography by means of an old coil which I got some 10 or 12 years ag but which is not nearly strong enough

for the wonderful effects that can now be shown by means of a first class coil I would therefore beg the Government to sanction the payment by Messrs Coutts and Co. London of £300/- or at least £250/ of bills for Scientific apparatus to my order The Comptroller may also be requested to sanction the payment of the charges at this end for freight, Clearance of Customs and forwarding charges from Madras I may state for the information of Government that the Christian College spent a very much larger sum last year on new apparatus

Trusting that my requests may meet with the favourable consideration of the Government

I have the honor to be
Sir
Your most obedient Servant

Veeck
Principal

Gl No 23 No 2840 2- dated 28 August 1896
25 113
sanctioning a Special Grant for
Physical Apparatus I have the honour
to state that I have had to get
on account of the new apparatus obtained
with this grant two large Almanahs,
and one Table (for the Monsoon Coil)
at a cost of Rs 159/- I had at first
paid this from the Contingent-
allowance for the Laboratory for
this year as I thought I should be
able to do so, but I now find that
the bill for chemicals and chemical
apparatus

4p

Apparatus received from England for the Laboratory has more than used up the whole of the Laboratory Grant for the year so that there is nothing left to pay Messrs. Ahrens & Co their bill of Rs 114-6-3 for freight and Carriage of Chemicals Moreover there are still 4½ months of the Official Year to run and sundry petty Laboratory charges to be met. I have the honour therefore to request that the Government may kindly sanction as a special charge for furniture the cost of the two Almirahs and Table Rs 15-9/- which will just enable me to meet the Chemical Laboratory charges for the Year

I have the honour to be

Bangalore

To

The Secretary to Government
General & Revenue Departments

With reference to my letter no 89 dated ~~[illegible]~~ 14 Sept 1896 re provision of clothing for College Peons I have the honor to state that I have ascertained that the usual course in other Government Offices is to provide the Peons with 2 suits of white clothing and 1 suit dark every two years and charge the same to the Contingency allowance As the present Contingency allowance of this College remains the same (Rs 300/ per annum) as it was when I came to the College nearly

16 years ago and is too small for our ordinary requirements about this ~~College~~ large institution so much so that every year it is exhausted 3 months before the end of the official year. I have the honor to request that sanction may kindly be given for increase of the central College contingent Grant from Rs 300 to Rs 400 per annum from the Commencement of the present official year 1897-98, for I find that our contingent allowance for 1897-8 was exhausted in the month of March and that we shall have spent over Rs 60/ by the end of June in excess which has to be recovered from the allowance of the succeeding year

37

Two of our college peons employed in the Laboratory are specially required to get their clothes destroyed by Lab work, though it is desirable that all peons about the Institution such as this should be always cleanly and respectably dressed, I have repeatedly had occasion to find fault with them for not being so. The peons to be provided with clothing are as follows

Laboratory Head attendant
Laboratory Second attendant
Duffedar
Principals office Peon
Principals House Peon
1st class Peon
2nd class Peon
Pressman Peon
Library Peon

and it is estimated that Rs per annum will be required for the clothing

I have the honour to be
